
Anniversary Clock Identification

by
Mervyn Passmore

Anniversary Clock Identification by Mervyn Passmore contains information, data and images on the majority of mass-produced Anniversary Clocks manufactured during the last 100 years.

This document is a small extract from the book, but please remember that these pages are copyright, and are normally only available to readers of the book.

This document is provided electronically to enable readers of the book to be able to exchange information about the clocks they own or are selling to fellow collectors or potential buyers.

To purchase your own copy of Anniversary Clock Identification, contact your local bookseller quoting the ISBN number of the book:

ISBN 978-0-907109-04-4

Copies can be obtained from many Clock Parts Distributors, online booksellers, on Ebay or direct from the distributors.

Many Public Libraries will obtain books by request.

Manufacturer:

**Jahresuhrenfabrik
A. Schatz & Söhne**

Model:

**Schatz Balance Wheel 59
8 Day
64mm x 101mm x 20mm**

Backplate information:

**A Schatz & Sons Germany 59
No (0) JEWELS UNADJUSTED
May show month & year of
manufacture**

Movement ID code: **JS-59**

Notes:

Although only an 8-Day clock, this was still in the style of an Anniversary Clock.

Schatz 8 day 59

curved legs

64x 101 x 20mm (including legs)

Notes

The support legs for this movement and the plates are combined into one piece.

The slow 1-second-per-beat balance wheel gives an illusion of a clock going for more than 8 days.

Domed models have a plastic dome with brass lugs that twists into place.

Rapid Recognition Tips

The only movement marked with Schatz 59.
Distinctive balance wheel
